

KLOVE, which is broadcast via FM translator, is a significant part of my daily life and of the lives of many in the Central KY community. The positive and encouraging message is an inspiration and comfort to a hurting world.

My 4 & 6 yr old kids listen daily and often ask questions about the content, leading to meaningful family discussions.

My family is so committed to this radio station and its ministry that we donate financial support on a monthly basis to KLOVE.

Strengthening individual family units is in the best interest of our country. KLOVE is instrumental in this endeavor.

To take KLOVE off the air due to the replacing its FM translator with a LPFM would be extinguishing a bright light of peace, hope, and love. Please do not take any action that would undermine KLOVE's ministry.
